-	Page 61		Page 63
1	A Correct. 11:28:56	1	Q And would this software let's say the 11:33:54
2	Q What was that software that Mr. Yeager	2	terminal server part of it at least, was that
3	gave to you?	3	running on the for example, the DECSYSTEM-20
4	A It was software that had router	4	computers?
5	functionality as well as terminal server 11:29:22	5	A No. 11:34:09
6	functionality.	6	Q What was it running on?
7	Q What had that software been developed for,	7	A It was running on a SUN processor card
8	to your knowledge?	8	where well, a SUN processor card.
9	A I believe it was developed to build	9	Q The SUN processor card was not a itself
10	help construct, build larger Ethernet networks. 11:30:11	10	a Sun computer, known as a Sun computer yet? 11:34:52
11	Q Do you know why Mr. Yeager gave you a copy	11	A It was not known it was could you
12	of that?	12	rephrase the question?
13	A There was a no. I wasn't in his I	13	Q Sure.
14	wasn't in his head. I don't know why he decided to	14	Well, SUN SUN is you're referring to
15	give me a copy. 11:30:57	15	Sun Microsystems? 11:35:14
16	Q Tell me how that came about. I mean, did	16	A No.
17	he just come in and give you some software out of	17	Q What does what's the SUN processor card
18	the blue?	18	then?
19	A My memory is not precise, but I believe I	19	A Stanford University network.
20	sent him some email asking if I could get a copy of 11:31:20	20	Q Okay. And did that do you understand 11:35:24
21	the software.	21	that that SUN became the Sun of Sun Microsystems?
22	Q And why did you do that?	22	A That is my understanding.
23	A I was interested in making changes to that	23	Q Had Sun Microsystems come into existence
24	software.	24	at this time?
25	Q What had been your exposure to that 11:31:45	25	A I don't recall the dates. 11:35:53
	Ç y y p		
	Page 62		Page 64
1	software prior to receiving a copy of it from 11:31:52	1	Q Okay. So you weren't responsible for the 11:35:54
2	Mr. Yeager?	2	terminal server software as part of your duties at
3	A The software that I was interested in was	3	Stanford, were you?
4	the terminal server software, which	4	A I was not responsible for the terminal
5	Q And why did you know about it? 11:32:18	5	server software as part of my official duties. 11:36:27
6	A Stanford had a number of terminal servers	6	Q Okay. So you requested the software from
7	on its network, and we used them.	7	Mr. Yeager out of interest; is that fair?
8	Q Can you tell me what you what is a	8	A Yes.
9	terminal server?	9	Q And do you know approximately when you
10	A It is a device for concentrating character 11:32:47	10	made that request to Mr. Yeager for the software? 11:36:44
11	mode terminals onto a network, and using a network	11	A To the best of my recollection, it was
12	protocol to exchange characters back and forth	12	early 1985. It could have been late 1984, though.
13	between the terminal server and the networked	13	Q Do you know who wrote the software that
14	computer at the other end.	14	Mr. Yeager provided to you?
15	Q Did the software that Mr. Yeager provided 11:33:17	15	A I do not know I do not know who wrote 11:37:43
16	to you, did it have a name at the time?	16	the software.
17	A Not that I recall.	17	Q Do you know anyone who contributed to that
18	Q And was that software actually in use at	18	software?
	the time that you received a copy of it?	19	A I believe Mr. Yeager was one of the people
19	A That was my understanding. 11:33:40	20	that contributed to that software. 11:37:58
19 20		l	O. D
	Q That it was in use?	21	Q Do you know anyone else who contributed to
20		21	Q Do you know anyone else who contributed to it?
20 21	Q That it was in use?		it?
20 21 22	Q That it was in use? A Yes.	22	

Cosas 5: \$.444c055834444ETF Document 6508-320 Filed 019/08/166 Pages 5 for 22

	Page 65		Page 67
1	Q While you were there? 11:38:34	1	Stanford? 11:44:15
2	A Yes.	2	A I don't remember if I provided the source
3	Q Did you ever work with Mr. Levy?	3	back. I certainly provided copies of the improved
4	A Yes.	4	software.
5	Q In what capacity? 11:38:48	5	Q You mean perhaps in binary form? 11:44:34
6	A I hired him.	6	A In binary form.
7	Q At Cisco?	7	Q Why didn't you sorry. Strike that.
8	A Yes. At Stanford.	8	The software you received from Mr. Yeager
9	Q Oh. In what role did you hire him? Or	9	was in source?
10	what position did you hire him for, to be clear? 11:39:26	10	A Correct. 11:44:44
11	A We referred to it as a cable a cable	11	Q Why didn't you provide the source back to
12	troll. Hardware technician would probably be the	12	Stanford?
13	more modern description of that.	13	MR. NEUKOM: Objection. Misstates prior
14	Q Did he work at all on modifying the	14	testimony.
15	software that Mr. Yeager provided to you? 11:40:21	15	THE WITNESS: I don't recall if I provided 11:45:02
16	A Not to my direct knowledge. Software was	16	the source code back to anybody at Stanford. I was
17	not part of his job duties for me.	17	Stanford.
18	Q And to be clear, did Mr. Almquist work on	18	BY MR. FERRALL:
19	modifying any of that software that Mr. Yeager	19	Q Did you implement the improved terminal
20	provided to you? 11:40:55	20	server software at Stanford? 11:45:22
21	A He may have.	21	A Yes.
22	Q To your knowledge, did he?	22	Q So where did the source for that improved
23	A I have no direct knowledge of that.	23	terminal server software reside when you implemented
24	Q Were you asked to make any changes to the	24	it?
25	software that Mr. Yeager provided to you? 11:41:13	25	A On a UNIX system that was that belonged 11:45:46
	Dama ((Page 60

1	A No. That was not part of my duties. 11:41:16	1	to Stanford. 11:45:55
2	A No. That was not part of my duties. 11:41:16 Q Did you talk to anyone about what you were	2	to Stanford. 11:45:55 Q And that's what you had done your
2	A No. That was not part of my duties. 11:41:16 Q Did you talk to anyone about what you were going to do with that software before doing it?	2	to Stanford. 11:45:55 Q And that's what you had done your modifications on?
2 3 4	A No. That was not part of my duties. 11:41:16 Q Did you talk to anyone about what you were going to do with that software before doing it? A I may have.	2 3 4	to Stanford. 11:45:55 Q And that's what you had done your modifications on? A Yep.
2 3 4 5	A No. That was not part of my duties. 11:41:16 Q Did you talk to anyone about what you were going to do with that software before doing it? A I may have. Q Who did you talk to? 11:41:38	2 3 4 5	to Stanford. 11:45:55 Q And that's what you had done your modifications on? A Yep. Q Did you make any modifications to the 11:46:12
2 3 4 5 6	A No. That was not part of my duties. 11:41:16 Q Did you talk to anyone about what you were going to do with that software before doing it? A I may have. Q Who did you talk to? 11:41:38 A I don't remember if I talked to anybody	2 3 4 5 6	to Stanford. 11:45:55 Q And that's what you had done your modifications on? A Yep. Q Did you make any modifications to the router functionality of the Yeager software?
2 3 4 5 6 7	A No. That was not part of my duties. 11:41:16 Q Did you talk to anyone about what you were going to do with that software before doing it? A I may have. Q Who did you talk to? 11:41:38 A I don't remember if I talked to anybody before I started on that.	2 3 4 5 6 7	to Stanford. 11:45:55 Q And that's what you had done your modifications on? A Yep. Q Did you make any modifications to the router functionality of the Yeager software? A My initial interest was only in the
2 3 4 5 6 7 8	A No. That was not part of my duties. 11:41:16 Q Did you talk to anyone about what you were going to do with that software before doing it? A I may have. Q Who did you talk to? 11:41:38 A I don't remember if I talked to anybody before I started on that. Q And what prompted you to start modifying	2 3 4 5 6 7 8	to Stanford. 11:45:55 Q And that's what you had done your modifications on? A Yep. Q Did you make any modifications to the router functionality of the Yeager software? A My initial interest was only in the only in the terminal server software.
2 3 4 5 6 7 8 9	A No. That was not part of my duties. 11:41:16 Q Did you talk to anyone about what you were going to do with that software before doing it? A I may have. Q Who did you talk to? 11:41:38 A I don't remember if I talked to anybody before I started on that. Q And what prompted you to start modifying or changing that software?	2 3 4 5 6 7 8 9	to Stanford. 11:45:55 Q And that's what you had done your modifications on? A Yep. Q Did you make any modifications to the router functionality of the Yeager software? A My initial interest was only in the only in the terminal server software. Q So is that I'm sorry. Is that a no,
2 3 4 5 6 7 8 9	A No. That was not part of my duties. 11:41:16 Q Did you talk to anyone about what you were going to do with that software before doing it? A I may have. Q Who did you talk to? 11:41:38 A I don't remember if I talked to anybody before I started on that. Q And what prompted you to start modifying or changing that software? A I wanted to learn a new technology, and I 11:42:39	2 3 4 5 6 7 8 9	to Stanford. 11:45:55 Q And that's what you had done your modifications on? A Yep. Q Did you make any modifications to the router functionality of the Yeager software? A My initial interest was only in the only in the terminal server software. Q So is that I'm sorry. Is that a no, you didn't make any modifications to the router 11:46:43
2 3 4 5 6 7 8 9 10 11	A No. That was not part of my duties. 11:41:16 Q Did you talk to anyone about what you were going to do with that software before doing it? A I may have. Q Who did you talk to? 11:41:38 A I don't remember if I talked to anybody before I started on that. Q And what prompted you to start modifying or changing that software? A I wanted to learn a new technology, and I 11:42:39 wanted to see if I could improve the behavior of the	2 3 4 5 6 7 8 9 10	to Stanford. 11:45:55 Q And that's what you had done your modifications on? A Yep. Q Did you make any modifications to the router functionality of the Yeager software? A My initial interest was only in the only in the terminal server software. Q So is that I'm sorry. Is that a no, you didn't make any modifications to the router functionality?
2 3 4 5 6 7 8 9 10 11	A No. That was not part of my duties. 11:41:16 Q Did you talk to anyone about what you were going to do with that software before doing it? A I may have. Q Who did you talk to? 11:41:38 A I don't remember if I talked to anybody before I started on that. Q And what prompted you to start modifying or changing that software? A I wanted to learn a new technology, and I 11:42:39 wanted to see if I could improve the behavior of the terminal server.	2 3 4 5 6 7 8 9 10 11	to Stanford. 11:45:55 Q And that's what you had done your modifications on? A Yep. Q Did you make any modifications to the router functionality of the Yeager software? A My initial interest was only in the only in the terminal server software. Q So is that I'm sorry. Is that a no, you didn't make any modifications to the router functionality? A I removed it.
2 3 4 5 6 7 8 9 10 11 12	A No. That was not part of my duties. 11:41:16 Q Did you talk to anyone about what you were going to do with that software before doing it? A I may have. Q Who did you talk to? 11:41:38 A I don't remember if I talked to anybody before I started on that. Q And what prompted you to start modifying or changing that software? A I wanted to learn a new technology, and I 11:42:39 wanted to see if I could improve the behavior of the terminal server. Q What was your intention of what you would	2 3 4 5 6 7 8 9 10 11 12 13	to Stanford. 11:45:55 Q And that's what you had done your modifications on? A Yep. Q Did you make any modifications to the router functionality of the Yeager software? A My initial interest was only in the only in the terminal server software. Q So is that I'm sorry. Is that a no, you didn't make any modifications to the router functionality? A I removed it. Q You removed it from your copy or what
2 3 4 5 6 7 8 9 10 11 12 13 14	A No. That was not part of my duties. 11:41:16 Q Did you talk to anyone about what you were going to do with that software before doing it? A I may have. Q Who did you talk to? 11:41:38 A I don't remember if I talked to anybody before I started on that. Q And what prompted you to start modifying or changing that software? A I wanted to learn a new technology, and I 11:42:39 wanted to see if I could improve the behavior of the terminal server. Q What was your intention of what you would do with the with your modifications to the	2 3 4 5 6 7 8 9 10 11 12 13 14	to Stanford. 11:45:55 Q And that's what you had done your modifications on? A Yep. Q Did you make any modifications to the router functionality of the Yeager software? A My initial interest was only in theonly in the terminal server software. Q So is that I'm sorry. Is that a no, you didn't make any modifications to the router functionality? A I removed it. Q You removed it from your copy or what do you mean, you removed it?
2 3 4 5 6 7 8 9 10 11 12 13 14	A No. That was not part of my duties. 11:41:16 Q Did you talk to anyone about what you were going to do with that software before doing it? A I may have. Q Who did you talk to? 11:41:38 A I don't remember if I talked to anybody before I started on that. Q And what prompted you to start modifying or changing that software? A I wanted to learn a new technology, and I 11:42:39 wanted to see if I could improve the behavior of the terminal server. Q What was your intention of what you would do with the with your modifications to the software? 11:43:04	2 3 4 5 6 7 8 9 10 11 12 13 14 15	to Stanford. 11:45:55 Q And that's what you had done your modifications on? A Yep. Q Did you make any modifications to the router functionality of the Yeager software? A My initial interest was only in theonly in the terminal server software. Q So is that I'm sorry. Is that a no, you didn't make any modifications to the router functionality? A I removed it. Q You removed it from your copy or what do you mean, you removed it? A That is correct. I removed it from my 11:46:58
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	A No. That was not part of my duties. 11:41:16 Q Did you talk to anyone about what you were going to do with that software before doing it? A I may have. Q Who did you talk to? 11:41:38 A I don't remember if I talked to anybody before I started on that. Q And what prompted you to start modifying or changing that software? A I wanted to learn a new technology, and I 11:42:39 wanted to see if I could improve the behavior of the terminal server. Q What was your intention of what you would do with the with your modifications to the software? 11:43:04 A That I would be able to improve its	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	to Stanford. 11:45:55 Q And that's what you had done your modifications on? A Yep. Q Did you make any modifications to the router functionality of the Yeager software? A My initial interest was only in the only in the terminal server software. Q So is that I'm sorry. Is that a no, you didn't make any modifications to the router functionality? A I removed it. Q You removed it from your copy or what do you mean, you removed it? A That is correct. I removed it from my 11:46:58 copy.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	A No. That was not part of my duties. 11:41:16 Q Did you talk to anyone about what you were going to do with that software before doing it? A I may have. Q Who did you talk to? 11:41:38 A I don't remember if I talked to anybody before I started on that. Q And what prompted you to start modifying or changing that software? A I wanted to learn a new technology, and I 11:42:39 wanted to see if I could improve the behavior of the terminal server. Q What was your intention of what you would do with the with your modifications to the software? 11:43:04 A That I would be able to improve its performance and its manageability.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	to Stanford. 11:45:55 Q And that's what you had done your modifications on? A Yep. Q Did you make any modifications to the router functionality of the Yeager software? A My initial interest was only in the only in the terminal server software. Q So is that I'm sorry. Is that a no, you didn't make any modifications to the router functionality? A I removed it. Q You removed it from your copy or what do you mean, you removed it? A That is correct. I removed it from my 11:46:58 copy. Q So again, going back to your testimony
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A No. That was not part of my duties. 11:41:16 Q Did you talk to anyone about what you were going to do with that software before doing it? A I may have. Q Who did you talk to? 11:41:38 A I don't remember if I talked to anybody before I started on that. Q And what prompted you to start modifying or changing that software? A I wanted to learn a new technology, and I 11:42:39 wanted to see if I could improve the behavior of the terminal server. Q What was your intention of what you would do with the with your modifications to the software? 11:43:04 A That I would be able to improve its performance and its manageability. Q Sticking with the terminal server	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	to Stanford. 11:45:55 Q And that's what you had done your modifications on? A Yep. Q Did you make any modifications to the router functionality of the Yeager software? A My initial interest was only in the only in the terminal server software. Q So is that I'm sorry. Is that a no, you didn't make any modifications to the router functionality? A I removed it. Q You removed it from your copy or what do you mean, you removed it? A That is correct. I removed it from my 11:46:58 copy. Q So again, going back to your testimony earlier this morning, when you referred to extending
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	A No. That was not part of my duties. 11:41:16 Q Did you talk to anyone about what you were going to do with that software before doing it? A I may have. Q Who did you talk to? 11:41:38 A I don't remember if I talked to anybody before I started on that. Q And what prompted you to start modifying or changing that software? A I wanted to learn a new technology, and I 11:42:39 wanted to see if I could improve the behavior of the terminal server. Q What was your intention of what you would do with the with your modifications to the software? 11:43:04 A That I would be able to improve its performance and its manageability. Q Sticking with the terminal server functionality, did you improve its performance?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	to Stanford. 11:45:55 Q And that's what you had done your modifications on? A Yep. Q Did you make any modifications to the router functionality of the Yeager software? A My initial interest was only in theonly in the terminal server software. Q So is that I'm sorry. Is that a no, you didn't make any modifications to the router functionality? A I removed it. Q You removed it from your copy or what do you mean, you removed it? A That is correct. I removed it from my 11:46:58 copy. Q So again, going back to your testimony earlier this morning, when you referred to extending and making improvements on software you received
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	A No. That was not part of my duties. 11:41:16 Q Did you talk to anyone about what you were going to do with that software before doing it? A I may have. Q Who did you talk to? 11:41:38 A I don't remember if I talked to anybody before I started on that. Q And what prompted you to start modifying or changing that software? A I wanted to learn a new technology, and I 11:42:39 wanted to see if I could improve the behavior of the terminal server. Q What was your intention of what you would do with the with your modifications to the software? 11:43:04 A That I would be able to improve its performance and its manageability. Q Sticking with the terminal server functionality, did you improve its performance? A Yes, I did. 11:43:44	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	to Stanford. 11:45:55 Q And that's what you had done your modifications on? A Yep. Q Did you make any modifications to the router functionality of the Yeager software? A My initial interest was only in theonly in the terminal server software. Q So is that I'm sorry. Is that a no, you didn't make any modifications to the router functionality? A I removed it. Q You removed it from your copy or what do you mean, you removed it? A That is correct. I removed it from my 11:46:58 copy. Q So again, going back to your testimony earlier this morning, when you referred to extending and making improvements on software you received from Mr. Yeager, was that only as to the terminal 11:47:49
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A No. That was not part of my duties. 11:41:16 Q Did you talk to anyone about what you were going to do with that software before doing it? A I may have. Q Who did you talk to? 11:41:38 A I don't remember if I talked to anybody before I started on that. Q And what prompted you to start modifying or changing that software? A I wanted to learn a new technology, and I 11:42:39 wanted to see if I could improve the behavior of the terminal server. Q What was your intention of what you would do with the with your modifications to the software? 11:43:04 A That I would be able to improve its performance and its manageability. Q Sticking with the terminal server functionality, did you improve its performance? A Yes, I did. 11:43:44 Q And did you provide your modifications	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	to Stanford. 11:45:55 Q And that's what you had done your modifications on? A Yep. Q Did you make any modifications to the router functionality of the Yeager software? A My initial interest was only in theonly in the terminal server software. Q So is that I'm sorry. Is that a no, you didn't make any modifications to the router functionality? A I removed it. Q You removed it from your copy or what do you mean, you removed it? A That is correct. I removed it from my 11:46:58 copy. Q So again, going back to your testimony earlier this morning, when you referred to extending and making improvements on software you received from Mr. Yeager, was that only as to the terminal server functionality?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A No. That was not part of my duties. Q Did you talk to anyone about what you were going to do with that software before doing it? A I may have. Q Who did you talk to? I1:41:38 A I don't remember if I talked to anybody before I started on that. Q And what prompted you to start modifying or changing that software? A I wanted to learn a new technology, and I 11:42:39 wanted to see if I could improve the behavior of the terminal server. 1	improvements to the terminal server part of the 11:48:18	1	A No. 11:54:43
2	software Mr. Yeager provided you?	2	Q Why did you do it?
3	MR. NEUKOM: Objection to form. Vague,	3	A I had figured out terminal servers and
4	compound.	4	PUP. The Internet protocol was the was the new
5	THE WITNESS: At a later date I did write 11:48:39	5	developing technology, and I wanted to learn more 11:55:07
6	router support and put it into the software.	6	about how IP worked.
7	BY MR. FERRALL:	7	Q What resources did you look at to learn
8	Q Okay. First, what's router support?	8	about how IP worked?
9	A Being able to receive a packet on one	9	A I looked at RFCs.
10	interface and figure out which of which other 11:49:28	10	Q Anything else? 11:55:46
11	interface to send it out upon, rewriting the header	11	A Not that I not that I recall.
12	of the packet as appropriate.	12	Q At some point did you tell anyone else at
13	Q What was the strike that.	13	Stanford that you were writing this IP support?
14	Was there router support functionality in	14	A I told my boss, Steve Hanson, and I also
15	the software Mr. Yeager provided you? 11:50:00	15	discussed it with Len Bosack. 11:56:28
16	A Yes.	16	Q Tell me about your discussion with
17	Q And what did you do to change that?	17	Mr. Hanson. What did you say to him?
18	A I removed his support because I wasn't	18	A "This is what I'm doing in my spare time."
19	interested in it at the time, and later on later	19	Q And what did he say?
20	on my interest changed. 11:50:45	20	A "Fine." 11:56:54
21	Q Okay. I understand that.	21	Q And what did you tell Mr. Bosack?
22	So what happened later on when your	22	A That I was I don't remember the details
23	interest your interest then moved to the router	23	of what I told him. We had technical discussions.
24	functionality? What did you do?	24	Q What were the technical discussions about?
25	A I wrote support for IP, and I took a few 11:51:10	25	A How elements of the protocol suite worked, 11:57:42
	Page 70		Page 72
1	pieces of the PUP support that Mr. Yeager had there. 11:51:28	1	programming techniques, possibly where the stuff 11:57:53
2	Well, actually, the PUP support actually	2	could be what stuff would be useful to Stanford
3	already existed for the terminal server portion.	3	that would also be interesting for me.
4	Q So the terminal server portion already had	4	Q At what time did you first have the idea
5	PUP support for routing? 11:52:08	5	to use this software in your own commercial venture? 11:58:34
6	A For routing and for terminal sessions.	6	MR. NEUKOM: Objection to form.
7	Q Okay. And did the software from	7	THE WITNESS: I did not come up with that
8	Mr. Yeager have any routing support for IP?	8	idea.
9	A Yes.	9	BY MR. FERRALL:
10	Q And did you use any of that? 11:52:46	10	Q Who did? 11:58:54
11	A No.	11	A I believe it was Len.
12	Q What did you do with it?	12	Q And when did you first learn of Len
13	A It was a confusing mess. I threw it out	13	Bosack's idea to use this software that you were
14	and wrote my own.	14	working on?
15	Q And when did you write that routing 11:53:03	15	A Sometime in early '86. 11:59:32
16	support for IP?	16	Q Did you ever tell Mr. Hanson about that
17	A Late '85, I believe.	17	idea to use the software in a commercial venture?
18	Q You wrote that the code sorry.	18	A No.
19	When you wrote that, the code was on this	19	Q Did you tell anyone at Stanford about that
20	UNIX computer at Stanford; is that right? 11:53:51	20	idea other than Mr. Bosack? 11:59:56
21	A I did my development on a UNIX system at	21	A No.
22	Stanford.	22	Q Who is Eric Schoen, S-C-H-O-E-N?
23	Q Did you talk to anyone about your	23	A I don't know.
24	intentions in writing this IP routing support prior	24	Q Do you know a Frank Gilmurray?
25	to doing so? 11:54:41	25	A Vaguely. 12:00:25

	Page 77		Page 79
1	Q Who do you know there? 12:56:33	1	A They were all on the border gateway 13:00:09
2	A I know Vic White. I know as in I	2	protocol.
3	socially I know Vic White and Ken Harrenstien. I've	3	Q Has Cisco ever had any policies about
4	never heard of Zaw-Sing Su. And Elizabeth Feinler I	4	their employees submitting RFCs to the IETF?
5	only know by reputation. 12:57:02	5	A I'm not aware of any specific policies. 13:01:02
6	Q Were they to your knowledge, were they	6	Q Did the software that you worked on at
7	all at SRI?	7	Stanford, the routing and terminal server software
8	A I know that Vic, Ken and Elizabeth were.	8	we talked about, did that include an address
9	I have no idea I've never seen the name Zaw-Sing	9	resolution protocol?
10	Su before today. 12:57:20	10	MR. NEUKOM: Objection to form. Vague. 13:02:09
11	Q What's SRI International?	11	BY MR. FERRALL:
12	A It is a primarily government-funded	12	Q I should say an address resolution
13	research institute.	13	protocol feature.
14	Q Did you ever have any involvement with	14	MR. NEUKOM: Same objection.
15	SRI? And when I say "involvement," I mean some 12:57:52	15	THE WITNESS: Yes. 13:02:23
16	official	16	BY MR. FERRALL:
17	A No.	17	Q And what were the sources of information
18	Q relationship.	18	for you in order to well, strike that.
19	A No.	19	Did you write software for the address
20	Q Okay. Let me ask you to look at 12:58:06	20	resolution protocol feature? 13:02:38
21	Exhibit 31.	21	A Yes.
22	Do you ever recall reviewing an RFC for an	22	Q And what were the sources of information
23	address resolution protocol?	23	that you used to prepare that address resolution
24	A I'd actually like to read through this.	24	protocol feature?
25	Q Well, I'm just asking you the question 12:58:38	25	MR. NEUKOM: Objection to form. Vague, 13:02:58
	Page 78		Page 80

1	MR. NEUKOM: Objection. Vague. 13:05:56	1	BY MR. FERRALL: 13:11:01
2	THE WITNESS: I do not understand your	2	Q At some point did you or colleagues of
3	question. What do you mean, develop features for	3	yours at Stanford refer to a gateway project?
4	the address resolution protocol?	4	A There was I don't recall anything that
5	BY MR. FERRALL: 13:06:12	5	was a gateway project. 13:11:20
6	Q Fair enough. Let me ask it a different	6	Q Did you ever refer to your the software
7	way.	7	that you were working on, the routing and the
8	Did you contribute to any IETF RFC	8	terminal server software, as software for a gateway?
9	relating to the address resolution protocol?	9	MR. NEUKOM: Objection to form.
10	MR. NEUKOM: Objection. Asked and 13:06:27	10	THE WITNESS: The devices that the 13:11:50
11	answered.	11	software ran on were either terminal servers or
12	THE WITNESS: No.	12	gateways.
13	BY MR. FERRALL:	13	BY MR. FERRALL:
14	Q Did you develop features at while at	14	Q What does a what's a gateway?
15	Cisco that relate to ARP, if you don't mind me using 13:06:44	15	A At Stanford at that time, it was what has 13:12:08
16	the acronym?	16	since been called a router. It's an obsolete name
17	A I don't understand the question.	17	for a router.
18	Q Who is Glenn Truitt?	18	Q Do you know who came up with the term
19	A He's a at my time at Stanford, he was a	19	"gateway"?
20	graduate student. 13:08:37	20	A No, I don't. 13:12:23
21	Q Did you work with him while at Stanford?	21	Q When did you first hear the term
22	A Briefly.	22	"gateway"?
23	Q In what capacity?	23	A I don't recall.
24	A I recollect that he may have written a	24	Q At Stanford sometime?
25	user guide to the software at the time, but that's 13:09:21	25	A Yes. 13:12:39
	7. 00		7 04
	Page 82		Page 84
1	about all that I remember of my interactions with 13:09:29	1	Q Were there devices that functioned as 13:12:47
2	him.	2	gateways in operation at Stanford before you left?
3	Q Did you oversee his writing of a user guide to the software?	3 4	A Yes. Q When, to your knowledge, was such a
4		5	
5 6		6	gateway device first operational at Stanford? 13:13:09 A I don't know.
7	Q Who did, do you know? A I have no idea.	7	Q When did you first hear about a functional
8	Q Why to your knowledge, do you know why	8	gateway at Stanford?
9	he wrote a user guide to the software?	9	A I don't recall.
10	MR. NEUKOM: Objection. Foundation. 13:10:07	10	Q Before you got the software from 13:13:30
11	THE WITNESS: No, I don't I don't	11	Mr. Yeager?
12	recall why he was doing that.	12	A Quite possibly.
13	BY MR. FERRALL:	13	Q Does the term TIP, T-I-P, mean anything to
14	Q And can you tell me, at what state of	14	you from your time at Stanford?
15	development of the software did he write a user 13:10:21	15	A Yes. 13:13:57
16	guide for?	16	Q What's that?
17	A I don't recall.	17	A It's an acronym.
18	Q At any time before you left Stanford, did	18	Q What does it mean?
19	you have a name for the software that you were	19	A Terminal interface processor.
20	working on that you had received from Mr. Yeager 13:10:43	20	Q Did any of your work while you were 13:14:12
21	originally?	21	employed at Stanford have to do with a TIP?
22	MR. NEUKOM: Objection. Misstates prior	22	A That was not part of my duties.
23	testimony.	23	Q My question was a little bit different.
24	THE WITNESS: There was no formal name for	24	A Okay.
25	the software. 13:10:58	25	Q My question was, while you were employed 13:14:31

2	for handling connections over the network to other	2	A Router name, close angle bracket.
3	hosts, sort of a subset of the of the terminal	3	Q Right.
4	server commands.	4	A Yes, I chose that.
5	Q And you said you chose the term "EXEC," 14:28:26	5	Q Okay. How did you come to choose that? 14:33:09
6	that's E-X-E-C; is that right?	6	A Well, there were when you have multiple
7	A Yes.	7	devices on a network, one of the first things you
8	Q You chose that term, yes?	8	want to know if you're typing at something is to
9	A Yes.	9	what you are typing at. So that sort of the most
10	Q How did you come up with that term? 14:28:39	10	aesthetic choice was the was the name of the 14:33:51
11	A Well, I had a number of possible ways of	11	device.
12	describing it. I could have used "shell" after	12	And the angle bracket was a nice visual
13	the modeling it along the UNIX way of UNIX	13	way of terminating you know, here's where your
14	equivalent.	14	type-in begins. Here's where the prompt ends,
15	From I decided EXEC in sort of you 14:29:15	15	here's where the type-in begins. 14:34:19
16	know, inspired by the TOPS-20 command processor.	16	Q Had you ever seen the angle bracket used
17	You know, calling it the command processor would	17	as a prompt in any other system?
18	have been another possibility.	18	A I wasn't aware of any generally available
19	There was a number of possibilities that I	19	host general purpose timesharing that actually
20	could have called it, what I could have called that 14:29:38	20	that was the default, that was the prompt. 14:34:56
21	particular part of the software, and I ended up	21	Q I'm not sure what you mean by that.
22	choosing EXEC.	22	But had you ever seen any system that used
23	Q Now, were you responsible for determining	23	a close angle bracket as a prompt?
24	the prompt symbol on the interface?	24	A No. TOPS-20 used an "at" sign and UNIX
25	I'm sorry. Let me be clear. 14:30:26	25	used a percent sign. 14:35:19
	Page 110		Page 112
1	I'm talking about on the interface line, 14:30:28	1	Q And you're not aware of any use of a hash 14:35:22
2	there are symbols that precede the input point, such		
	* * *	2	sign as a prompt?
3	as a hash sign, for example, right?	3	A Not to my recollection.
3 4	as a hash sign, for example, right? A So for I was responsible for choosing	3 4	A Not to my recollection.Q You were familiar with UNIX in the mid

1	THE VIDEO OPERATOR: Going off the record, 14:58:06	1	document that he's just put in front of you before 15:27:57
2	the time is 2:58 p.m.	2	answering his question.
3	(Recess, 2:58 p.m 3:24 p.m.)	3	THE WITNESS: Okay. I'll read it.
4	THE VIDEO OPERATOR: Back on the record.	4	MR. FERRALL: Actually, no, I would like
5	The time is 3:24 p.m. 15:24:02	5	him to answer the question. 15:28:03
6	BY MR. FERRALL:	6	Q Are you telling me you can't tell me
7	Q Mr. Lougheed, when did you first become	7	whether you sent the email?
8	aware of DOS, D-O-S?	8	MR. NEUKOM: It's a totally unfair
9	A I'd say whose DOS?	9	question. The email that he sent would necessarily
10	Q MS-DOS. 15:24:36	10	include everything that follows. 15:28:10
11	A MS-DOS? I probably heard about it when	11	If you want him to tell you whether he
12	IBM announced the IBM PC.	12	remembers this or whether he sent it, let him read
13	Q Do you recall that MS-DOS uses a close	13	the document. Come on, Brian.
14	angle bracket as a prompt?	14	It's a page and a half. We're not talking
15	A Now that you remind me, it does. 15:25:16	15	about him wasting 30 minutes to read a product 15:28:20
16	Q Do you think you might have been inspired	16	manual. It's a page-and-a-half email. The witness
17	by that prompt when you chose the close angle	17	has said he wants to read it, and we're going to let
18	bracket for Cisco's prompt?	18	him read it.
19	A No. I was not a DOS user.	19	THE WITNESS: Okay. I've read it.
20	Q So it's just a coincidence that you and 15:25:34	20	BY MR. FERRALL: 15:29:28
21	DOS came up with the same prompt, to your knowledge?	21	Q Okay. Did you send this email that's
22	MR. NEUKOM: Objection. Asked and	22	dated December 11, 2008, at 10:14 p m.?
23	answered.	23	A I believe I did.
24	THE WITNESS: I was not a DOS user. I	24	Q Okay. And in the last paragraph of that
25	first I was not a DOS user. 15:26:06	25	email, you write, "The percent sign leading a 15:29:41
	Page 122		Page 124

Q First let me ask you the question so you 15:27:19 know what to look for. A I will forget the question by the time I'm done reading this. Q Well, Mr. Lougheed, that's not the way it works, actually. I ask the question and you answer it. A Okay. Q If you can't answer it, then you tell me. My only question is, did you send the email that's at the top of Exhibit 38, the one at 15:27:38	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	used such a convention and I adopted it." Do you see that? A Yeah, I do see that. 15:29:59 Q Why did you adopt a TOPS-20 convention? A Of the possibilities that I had, that seemed that seemed a reasonable to me, it seemed like a reasonable way of doing things. Q Did you get permission from Digital 15:30:32 Equipment Company to use that convention? MR. NEUKOM: Objection. Calls for a legal conclusion and misstates prior testimony. THE WITNESS: No, I did not seek permission. 15:30:55 BY MR. FERRALL: Q Have you ever heard of the acronym RIP in the context of networking? A It typically means routing information protocol. 15:31:18
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	(Exhibit 38 was marked for identification and is attached hereto.) BY MR. FERRALL: 15:26:37 Q Exhibit 38 is a set of emails between you and Mr. Remaker, among others. It bears control numbers CSI-ANI-00043306. A Okay. I'd like to read this. Q First let me ask you the question so you 15:27:19 know what to look for. A I will forget the question by the time I'm done reading this. Q Well, Mr. Lougheed, that's not the way it works, actually. I ask the question and you answer it. A Okay. Q If you can't answer it, then you tell me. 1	BY MR. FERRALL: 15:38:30	1	MR. NEUKOM: Objection. Vague and asked 15:42:59
2	Q Okay. IBM didn't ask you for permission,	2	and answered.
3	either, correct?	3	THE WITNESS: I suppose I had. When one
4	A No.	4	is talking about different networking protocols, one
5	Q One of the CLI terms in this case is the 15:39:20	5	needs to clarify which networking protocol one is 15:43:10
6	term "IP address."	6	talking about. So it was probably terminology that
7	Are you familiar with that?	7	was in the air.
8	A I'm familiar with the command expression	8	BY MR. FERRALL:
9	"IP address."	9	Q Does the same go for "IP host," also? You
10	Q Did you come up with the phrase "IP 15:39:33	10	had heard that before you joined Cisco? 15:43:29
11	address"?	11	MR. NEUKOM: Objection. Misstates prior
12	A When Cisco came out of Stanford, we were	12	testimony.
13	shipping an IP an Internet protocol only router.	13	THE WITNESS: The original form of the
14	And there was a command "address" that took some	14	"host" command was just "host command." It was
15	arguments. 15:40:12	15	another one that had to distinguish, in a 15:43:41
16	And after after a while, we started	16	multi-protocol world, in a multi-protocol piece of
17	adding other protocols to the software. The first	17	software, what you were talking about.
18	one was "DECnet." And since "address" was already	18	It would have looked very odd in a
19	taken to refer to IP functionality, Internet	19	multi-protocol router that there was one protocol
20	protocol functionality, we came up with "DECnet 15:40:44	20	that wasn't prefaced by a some descriptive 15:44:03
21	address," and then had a DECnet address after it.	21	keyword.
22	That "DECnet address" command could have	22	BY MR. FERRALL:
23	very well have said "address," and then DECnet	23	Q Following up on that, the purpose of your
	-		
24 25	addresses look different than IP addresses, and we could have had the software figure out which type of 15:41:11	24 25	use of "IP" as the first keyword in that command "IP host" was to distinguish the protocol that it's 15:44:33
25	could have had the software righte out which type of 15.41.11	25	nost was to distinguish the protocol that it's 13.44.33
	Page 130		Page 132
1	address we were referring to. But we chose "DECnet 15:41:13	1	referring to? 15:44:36
2	address."	2	A That was the aesthetic choice I made.
3	It became clear that much more that we	3	MR. NEUKOM: Objection. Mischaracterizes
4	were becoming a multi-protocol router. We were	4	prior testimony.
5	adding other protocols into the box, into the 15:41:27	5	THE WITNESS: There were many possible 15:44:49
6	software.	6	ways of doing it. As I indicated, I could perhaps
7	And I had I value I value the	7	take a look at an address and then infer what it
8	aesthetic of having a symmetric-looking command line	8	was. But that was not the choice that I made at the
9	expression, symmetric hierarchy. It was clear we	9	time.
10	were heading towards a hierarchy. 15:41:52	10	BY MR. FERRALL: 15:45:07
11	So at some point after DECnet and perhaps	11	Q What were the alternative commands that
12	a few other protocols to make things look very	12	you considered for "IP host"?
13	similar, we started prefacing our IP-only commands	13	A "Name." "Name" was certainly one of the
14	with "IP." And that gave a very what I thought	14	possible candidates. "Network system" or
15	was a very elegant, symmetric, elegant way of 15:42:16	15	"system" there are many, many words that one 15:45:51
16	referring to different protocols within a	16	could use to refer to all sorts of different things.
17	multi-protocol router.	17	Q Okay. But now you're talking about
18	So that is the history of the "IP address"	18	alternatives for the word "host," right?
19	command.	19	A Um-hum.
20	Q Okay. My question was simpler. I 15:42:36	20	Q Okay. You didn't you're not the first 15:46:08
21	appreciate that answer. But my question was a	21	one to use the word "host," are you?
22	little simpler than that, but let me ask it a	22	A No.
23	different way.	23	Q I mean, "host" had been used for well
24	You had heard of the term "IP address"	24	before you joined Cisco to refer to a computer host.
25	before you joined Cisco, hadn't you? 15:42:51	25	It's a conventional term, right? 15:46:29
25	before you joined cisco, madn't you.		

	Page 141		Page 143
1	BY MR. FERRALL: 16:08:17	1	A I don't remember the exact details, but it 16:13:52
2	Q Okay. Do you have any other recollection	2	is either assigns an access list to an interface
3	as to who actually received the software from	3	or I think it assigns an interface to a an
4	Mr. Hedrick?	4	access list to an interface. I believe it's access
5	A No. 16:08:22	5	class or something like that that assigns it to an 16:14:07
6	Q Tell me how strike that.	6	interface or to a line number.
7	Do you believe that you created the	7	Q The term "domain name" is not a term that
8	command "IP access list"?	8	you made up, is it?
9	MR. NEUKOM: Objection. Vague.	9	A No, I didn't make I no, I did not.
10	THE WITNESS: I yes. 16:10:20	10	Q "Domain name" is a term that goes back to 16:15:38
11	BY MR. FERRALL:	11	the ARPANET, actually. Are you aware of that?
12	Q What functionality does that implement?	12	MR. NEUKOM: Objection. Foundation.
13	A It the "access list" command, which I	13	THE WITNESS: I would be unsurprised if it
14	implemented at Stanford, the original form at	14	went back that far.
15	Stanford was a sequence of addresses and subnet 16:10:51	15	Are you referring to ARPANET protocols or 16:16:02
16	masks or in a mask, not a subnet mask but a mask,	16	ARPANET network?
17	saying which bits to ignore in the address.	17	BY MR. FERRALL:
18	And you provide a list of these items and	18	Q The ARPANET network.
19	give it a number. I chose I chose 1, 2, 3, 4, up	19	A I believe the concept was introduced while
20	to 99, or something like that. 16:11:35	20	the ARPANET network was still running. 16:16:15
21	And then if you assigned it to a terminal	21	Q What about the words "domain lookup"? Did
22	line, it could restrict what computers what	22	you coin that term "domain lookup"?
23	addresses somebody could connect to from that	23	MR. NEUKOM: Objection. Vague.
24	particular terminal line.	24	THE WITNESS: It's a parallel construction
25	You could also assign it to a network 16:11:59	25	to terms like "address lookup" or "host lookup" or 16:16:52
	Page 142		Page 144
1	interface, and it would as a packet that was 16:12:12	1	the like, or "database lookup" or 16:16:59
2	being sent sent out that interface, it could	2	BY MR. FERRALL:
_			DI MIN TERNALL.
3	either be permitted or denied going through that	3	
3 4	either be permitted or denied going through that interface.	3 4	Q Did you coin the term "domain lookup"? A I decided to use that as a command
	interface.		Q Did you coin the term "domain lookup"?A I decided to use that as a command
4	interface.	4	Q Did you coin the term "domain lookup"?A I decided to use that as a command

	Page 173		Page 175
1	MR. FERRALL: Why don't we go off the 17:45:36	1	A It seemed it seemed aesthetically 17:49:52
2	record and get a time check.	2	pleasing to me. It was something that was
3	THE VIDEO OPERATOR: Going off the record,	3	descriptive of an action that I wanted to take that
4	the time is 5:45 p m.	4	was a fairly generic action, a fairly common action.
5	(Recess, 5:45 p m 5:46 p.m.) 17:45:41	5	Q What does "banner MOTD" mean? 17:50:47
6	THE VIDEO OPERATOR: Back on the record,	6	A MOTD is message of the day.
7	the time is 5:46 p m.	7	Q Did you make up that acronym?
8	MR. NEUKOM: So back on the record. I	8	A No, I did not.
9	think we're all in agreement and the videographer	9	Q Who did?
10	has confirmed that there are 26 minutes left. 17:46:06	10	A I don't know. 17:51:07
11	MR. FERRALL: Right.	11	Q Did you coin the term "banner" as an
12	Q So you have a set of commands that begin	12	operating system command?
13	with the keyword "clear," right?	13	MR. NEUKOM: Objection. Vague.
14	A Um-hum.	14	THE WITNESS: I simply implemented the
15	MR. NEUKOM: I think he needs a "yes" or a 17:46:36	15	command. 17:51:37
16	"no."	16	BY MR. FERRALL:
17	no. THE WITNESS: Yes, the Cisco command line	17	
18	interface has a hierarchy of command expressions	18	Q Are you aware of operating systems in
	•		existence before you joined Cisco that used the
19	that begin with the keyword "clear."	19	command "banner"?
20	BY MR. FERRALL: 17:46:55	20	A I don't recall any at this point. 17:51:52
21	Q Were you aware of any operating system	21	Q When did you come up with the command
22	that used the word "clear" as a command before you	22	"banner MOTD"?
23	joined Cisco?	23	A The command that came first was just
24	MR. NEUKOM: Objection. Vague.	24	"banner," and its function was to print a vacant
25	THE WITNESS: I believe there is a UNIX 17:47:21	25	terminal message on a terminal and to apply some 17:52:26
	Page 174		Page 176
1	command "clear" that blanks a screen. I'm not aware 17:47:22	1	jitter in the positioning so that it wouldn't burn 17:52:31
2	of any operating system that uses "clear" in the	2	in those letters in the in one spot in the
3	sense that the Cisco CLI uses "clear."	3	terminal.
4	BY MR. FERRALL:	4	Then I think after we left Stanford
5	Q Tell me about the creative process that 17:47:57	5	actually, I'm not clear when the MOTD was 17:52:55
6	went into your selection of the word "clear" as the	6	implemented. I suspect it was after I left
7	first keyword in these commands.	7	Stanford, but I'm not my memory is not clear on
8	MR. NEUKOM: Objection. Vague and	8	that.
9	compound.	9	Q So to be clear, you're not saying that you
10	THE WITNESS: I needed some way of 17:48:19	10	came up with the term "banner" as a command, are 17:53:15

2	Q Sorry. I'm going to jump back to ARP.	2	was in the Mercury News in the morning, and then
3	There's a term you use associated with	3	later through internal email at Cisco.
4	ARP, "ARP cache." We talked about that earlier in	4	Q When the suit was filed?
5	looking at one of the "clear" commands, right? 18:01:52	5	A When the suit was filed. 18:06:38
6	Where did the term "ARP cache" come from?	6	Q Okay. Not before?
7	A The cache is a logically a list of	7	A Not before.
8	items. An ARP cache would be a list of ARP requests	8	Q Did you have any involvement in the
9	that have been satisfied, including their MAC	9	litigation between Cisco and Huawei?
10	addresses and how long since the last time we'd seen 18:02:37	10	MR. NEUKOM: That's a "yes" or "no" due to 18:06:49
11	a the router had seen an ARP request go by for	11	privilege concerns.
12	that particular source address.	12	THE WITNESS: No, I was not involved with
13	That sort of computer science concept of a	13	Huawei.
14	cache is found all over.	14	BY MR. FERRALL:
15	Q One of the commands that is indicated that 18:03:14	15	Q Are you able to sorry. Strike that. 18:07:26
16	you authored is the command "boot system."	16	Were you involved at all in composing any
17	Had you ever heard someone use the words	17	of the commands that begin with "AAA"?
18	"boot system" together before you joined Cisco?	18	A No.
19	MR. NEUKOM: Objection. Vague.	19	Q Can you tell me how the "clock set"
20	THE WITNESS: I had heard phrases like 18:03:45	20	command was composed? 18:08:07
21	"boot the system up," "reboot the system," "reload	21	A No, I cannot. I wasn't involved.
22	the system," "start the system," "restart the	22	Q Can you tell me how any of the IPv6
23	system."	23	commands were composed?
24	(Exhibit 43 was marked for identification	24	A Yes.
25	and is attached hereto.) 16:48:10	25	Q Which ones? 18:08:30
	Page 182		Page 184
1	BY MR. FERRALL: 18:04:06	1	A IPv6 address. IPv6 route. 18:08:37
2	Q We've marked as Exhibit 43 a document	2	Q What was your role in composing IPv6
3	entitled "DECbrouter 90 Products Configuration and	3	address?
4	Reference Volume 2." It bears control numbers	4	A I was creating a prototype IPv6
5	CSI-ANI-00081683 to 81683.000344. 18:04:25	5	implementation. 18:09:03
6	Have you ever seen Exhibit 43 before?	6	Q Did you come up with that command, "IPv6
7	A No.	7	address"?
8	Q According to the metadata of this	8	A Yes.
9	document, you are the custodian.	9	Q When did you do that?
10	Do you have any idea why that's the case? 18:05:03	10	A I believe it was 1996. 18:09:21
11	A No, I don't. I haven't seen it before.	11	Q Did you work with anyone else on that?
12	Q Let me turn to another question.	12	A Yes.
13	Were you have you ever tracked the	13	Q Who?
14	extent to which other companies have used Cisco CLI	14	A Dino Farinacci and Rand Atkinson, and
15	commands? 18:05:45	15	later Pedro Marquez. 18:09:42
16	A No, I have not.	16	Q The other one you said was IPv6 route?
17	Q Are you aware of other companies using	17	A That may have been Dino.
18	Cisco CLI commands?	18	MR. FERRALL: Let me go off the record for
19	A I'm aware of Arista using Cisco CLI	19	a second.
Ī	commands. 18:06:07	20	THE VIDEO OPERATOR: Going off the record, 18:10:11
20	Q Are you aware of any other company using	21	the time is 6:10 p.m.
	2 The you aware of any other company using		
20	Cisco CLI commands?	22	(Recess, 6:10 p.m 6:11 p.m.)
20 21		22 23	(Recess, 6:10 p.m 6:11 p.m.) THE VIDEO OPERATOR: Back on the record.
20 21 22	Cisco CLI commands?		

	Page 185		Page 187
1	BY MR. FERRALL: 18:11:36	1	Mr. Tjong. If you're okay with it, I'd like to just 18:14:53
2	Q Did you compose the command "timers basic	2	do a stipulation across the case that both sides
3	RIP"?	3	have the 30-day review and errata right for all
4	A I believe I did.	4	transcripts regardless whether counsel puts it on
5	Q Prior to your joining Cisco, are you 18:11:55	5	the record at the depo as a two-way street. 18:15:04
6	familiar with any commands that use the word	6	MR. FERRALL: That's fine. I thought it
7	"timers"?	7	existed as a matter of procedure anyway. So that's
8	MR. NEUKOM: Objection. Vague.	8	fine.
9	THE WITNESS: No, I was not aware of any	9	MR. NEUKOM: I hope you're right, but glad
10	operating system, general purpose or network 18:12:13	10	to have the stipulation, even if it's unnecessary. 18:15:17
11	specific, that used had a "timers" command.	11	MR. FERRALL: Okay.
12	BY MR. FERRALL:	12	MR. NEUKOM: Thanks very much.
13	Q How did you come up with the command	13	THE VIDEO OPERATOR: This concludes
14	"timers basic RIP"? Describe that creative process	14	today's videotaped deposition of Mr. Kirk Lougheed.
15	for me. 18:12:30	15	We're off the record at 6:15 p m. Thank you. 18:15:25
16	A There developed a need or a desire to	16	(TIME NOTED: 6:15 p m.)
17	change some of the fundamental timing constants	17	000
18	of I think first was the IGRP routing protocol,	18	
19	and I implemented a command that allowed those	19	
20	timers to be user-configured. 18:12:59	20	
21	And later on I or someone else extended	21	
22	that to the RIP timers so customers could speed up	22	
23	or slow down the pulse of routing updates.	23	
24	Q And when did that occur?	24	
25	A 1988 or 1989. 18:13:36	25	
	Dama 100		Dama 100
	Page 186		Page 188
1	Q How did you choose the term the words 18:13:39	1	
2	"timers basic" for this function?	2	
3	A I don't remember where "basic" came from.	3	
4	But using the keyword "timers" was my was my
